

THE ULTIMATE TAP TIMER

Designed to remotely manage the irrigation of balconies and terraces

ALL IN ONE

MULTIPLE PROGRAMMING OPTIONS

VIA DIGITAL DISPLAY
with knob control

VIA BLUETOOTH
with Vision App on smartphone

VIA INTERNET
with Vision App and Webapp thanks to Wi-Fi connection

Amico Vision tap timer

Amico Vision is just perfect for managing the irrigation of your terraces, balconies and flower beds.

This premium Tap Timer connects to the tap using a metal fitting which increases its strength and the hydraulic reliability.

The Nuvola Mini WiFi Hub included allows you to manage your irrigation system online, using the Vision App.

You can also command the unit directly using the control knob, or using your smartphone's Bluetooth connection.

Recharge Amico Vision simply plugging it into a USB outlet using the included cable.
